

IP Checker API

SOFTWARE DEVELOPMENT TEAM

RELEASE NOTES
VERSION NO. 1.0
2021 JUN 15

OVERVIEW

Amazon promises to offer an honest and trustworthy service by selling only authentic products on their site. So, they are quite strict in filtering products and sellers.

There are general rules that a seller needs to abide by to avoid counterfeiting tags, legal issues, withheld funds, loss of selling privileges, and more.

In **Fast Track FBA**, we can share with you a list of brands and their current **Intellectual Property (IP) status** through our very own IP checker.

RELEASE HISTORY

This document will serve as a reference guide to developers outside Fast Track FBA (FTF) who wish to connect with FTF's IP Checker into their own software developments.

Release Date	Version No.	Developers	Documents	Approver
2021 Jun 15	v1.0	D.C. & N.A.	M.Y.	T.P.

TECHNICAL PROCEDURE

1. Get the list of brands from <http://138.68.177.203/brandlist>
2. Once you have a particular brand you wish to verify, simply use the url below to view its IP status:

<https://fasttrackfba.com/ipc-api/?brand=matrix>
where "matrix" would be the brand variable
